## The Big Story:

By Dora Lepsch

This isn't exactly good news for some people. The school is being taken over by aliens. It is said that these aliens plan to use our school to take over Canada.

This started when a lot of people started getting detention. Many kids in the seventh and eighth grade say that weird things have been happening after school. Martika told "the buzz" that Mr. Hills went crazy and let everyone out of detention early.

Did you ever notice that everyone gets detention for the same reasons? They interrupt class by speaking weird languages. Many people say that the people that are in detention have secret meetings about how to take over the world. There is incredible evidence that during detention they are replaced by aliens and that they have to go back daily to get orders from their alien masters.

These are the teachers that are supposed to be the leaders of the aliens. Mr. Hills is an alien because he wears a tie so the big red eye in the middle of his chest doesn't show. Mrs. Ricchiazzi is an alien because she never gets mad at anyone. Mrs. Nemeth is an alien because anyone that likes math is from another planet. And Mr. Gorney is because no one likes gym as much as he does.

Has anyone ever thought of why people that used to get high grades are now getting very low ones? Stephanie told the "buzz" that she noticed certain people are acting very odd. It is said that their brains have been turned into peanuts. The "buzz" asked Mrs. Snyder if she noticed a difference in the way her students are acting, she said that some kids have been giving the wrong answers on test .

Canada's prime minister has just told the newspaper that whatever is going on with the school better end soon. Even though many people support the aliens taking over Canada some don't. **April fools!!!!**

## Vinny's Views

For a long time, dating back to the ancient Greece Times, comedy had been something very important to all civilizations. They all used to gather around a big stadium and watch plays for entertainment. Comedy has become part of our every day's lives. It makes us feel good and it brings out the happiness in people when they are down.

The ability to laugh and be humorous is something that we should all have. Although it is important for us to stay on top of things, we also need to have fun. Some of the

things in this edition of the newspaper will be funny. They are not meant to offend any one. At a time like this, in our country, we need the enjoyment of laughter and we need to be in good spirits. Things have been a little rough and emotions are mixed, smiles and laughs are something that can help us all.

Being able to joke around and laugh with each other is very important. We should all use laughter in our every day lives. Although humor is good we should only use it to an extent. Laughter is the key to happiness.
